Victoria Skokan
Trainee JS developer

ABOUT ME

I became interested in programming 4 years ago. My passion is web development, both frontend and backend. I like learning new technologies as a hobby :) My personal interests mostly include SPAs on Vue and pure JS, also I like relational databases. I have no commerical experience (only some pet-projects) and would like to start a career in IT.

SKILLS

FRONTEND	BACKEND	MISC
Figma	Node.js	Linux
HTML	Express	Git
